FashionStore documentation

Jakarta Servlet MVC store: browse products, register/login, session cart, COD checkout.

Document	Markdown	PDF
Architecture	architecture.md	architecture.pdf
Database	database.md	database.pdf
Controllers	controllers.md	controllers.pdf
This index	README.md	README.pdf

Stack: Java 17, Jakarta Servlet 6, JSP, JDBC, MySQL, Maven WAR. There is **no service layer**. Servlets talk to DAO implementations, then forward to JSP under `WEB-INF/views`.
